Water Resources Management **3** (1989)

Contents of Volume 2

Volume 3 No. 1 1989

W. BAUWENS and G. L. VANDEWIELE / The Real Time Runoff Forecast Models for the Rivers Dijle 1

†G. S. GHALI / Multi-Dimensional Analysis of Soil Moisture Dynamics in Trickle Irrigated Fields. I: Mathematical Modelling 11

†G. S. GHALI / Multi-Dimensional Analysis of Soil Moisture Dynamics in Trickle Irrigated Fields. II: Model Testing 35

Technical Communications:

TIM KELLEY and SAM H. JOHNSON III / Use of Factor-*K* Water Allocation System in Irrigation Management: Theory and Application in Indonesia 49

SALVATORE INDELICATO, MIHAELA IONESCU, and GIUSEPPE ROSSI / Training Research, and Technical Assistance to Improve the Water Resources Management in Southern Italy – The Experience of CSEI Catania 73

Book Review:

Howard H. Chang: *Fluvial Processes in River Engineering* (PANAYIOTOS DIPLAS) 83

Errata:

Shivendra Nath Rai and Rishi Narain Singh: 'On the Predictability of the Water-Table Variation in a Ditch-Drainage System', *Water Resources Management* **2** (1988), 289–298 85

ECOWARM: News and Information 87

Volume 3 No. 2 1989

JURE MARGETA and DARRELL G. FONTANE / Model for Reservoir Operations During Periods of High Flow 91

DEMETRIS KOUTSOYIANNIS and THEMISTOCLE XANTHOPOULOS / On the Parametric Approach to Unit Hydrograph Identification 107

YEOU-KOUNG TUNG and WADE E. HATHHORN / Multiple-Objective Waste Load Allocation 129

CONTENTS OF VOLUME 3

Technical Communications:

B. S. PIPER, CHAIYUTH SUKHSRI, SUWIT THANOPANUWAT, and D. G. KNOTT / A Simulation Model for Planning Water Resource Developments in the Chi River Basin 141

B. S. PIPER, C. CHAWALIT, and V. PANTHEEP / Chi River Basin Irrigation Demand Model 155

ECOWARM: News and Information 165

Volume 3 No. 3 1989

Review Paper:

J. KINDLER and D. P. LOUCKS / Water Resources Research at IIASA: 1973–1988 169

J. GANI and S. YAKOWITZ / A Probabilistic Sedimentation Analysis for Predicting Reservoir Lifetime 191

MOHAMED NASR ALLAM and ABDULLAH SAAD AL-WAGDANY / A Physically-Based Flood Volume Distribution Model 205

CHRISTOS TZIMOPOULOS / The Artificial Recharge of Groundwater: A Solution by Successive Variations of Steady States 231

ECOWARM: News and Information 241

Volume 3 No. 4 1989

WADE E. HATHHORN and YEOU-KOUNG TUNG / Bi-Objective Analysis of Waste Load Allocation Using Fuzzy Linear Programming 243

S. I. KOTSOPULOS and Z. J. SVEHLIK / Analysis and Synthesis of Seasonality and Variability of Daily Potential Evapotranspiration 259

N. K. TYAGI, R. SUBBAIAH, and JASPAL SINGH / An Application of Linear Programming to Determine Optimal Systems for Rainwater Management: An Economic View 271

A. POULOVASSILIS, S. ELMALOGLOU, P. KERKIDES, and I. ARGYROKASTRITIS / A Variable Sorptivity Infiltration Equation 287

Technical Communication:

MILAN K. JERMÁŘ / Water Management for Food Production: Strategy Plan 299

Research Note:

G. PAPAIOANNOU, C. JACOVIDES, and P. KERKIDES / Atmospheric Stability Effects on Eddy Transfer Coefficients and on Penman's Evaporation Estimates 315

ECOWARM: News and Information 323

Key Word Index to Volume 3 325
